NOTICE.

THE Public are hereby cautioned against Intemperate Drivers in the streets in this city. The lives of people are in danger every time from fast driving in the streets. I shall take notice of every complaint of the kind and offenders of the Order in this respect, to the best of my knowledge, and will punish them to a certainty to the extent of the law. I find that the chief is not quite strong enough for half town carriages. He is keeping in the streets faster the number that by street ordinance he is allowed to do. I will protect all citizens from the pain of riding a liberal share of the streets.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are booked at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including transit, across Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Ag nts at Panama, and tickets thus signed can be obtained of the only *authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city, C. L. BARTLETT, Agent,

American & Foreign Patents.

B. F. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,)

75 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made in the American or Foreign works, to determine the novelty or utility of Patents or Inventions—and opinions rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through its inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below give unequivocal proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber: and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he can also do it reasonably and cheaply. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

[I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents

"I have no hesitation in awarding to inventors that they cannot employ a more warm competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents

"Boston, February 8, 1856.

Mr. B. F. Eddy has made for me THIRTEEN applications in all but one of which patents have been granted, and that is now pending. Such unvaried success of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made 68 applications for patents, SIXTEEN OF WHICH WERE REFUSALS. EVERY ONE of which was decided in the *favor*, by the Commissioner of Patents

REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 EXchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Reissues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured for prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials.—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. Patent Office, Washington, Feb. 22, 1858.

I take great pleasure in stating that during the time I have been Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been employed by solicitors and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to his clients and to the business entrusted to him, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a Principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his prompt attendance to and assistance rendered by him for the business in which he is about to engage,

HIGHLY IMPORTANT DISCOVERY.

Tousel's Fabulum Vitæ

Has now gained a position before the

PUBLIC

As a MEDY yet discovered for speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all her Pulmonary Kindred Complaints.

The Proprietor has spent over twenty years of study and experiment, to compound this remedy and it is the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures from every section of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And unquestioned Superiority

of this preparation to any other remedy now extant, and we confidently anticipate to give it a wider and more extensive reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The disorder which has been thrown upon all preparations yet presented by the proprietors, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, submits to the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guarantees itself will effect all that he represents, not having heard of a single case where it has failed to give relief or cure.

It is warranted to cure

Consumption by using One to six Bottles,

Bronchitis by using One to Three Bottles,

Coughs by using it One to Two Bottles,

Colds by using it One to Two Bottles,

Bleeding of the Lungs by using less than One Bottle;

A Voice from the Oligarchy, proclaiming Modern Democracy.

Senator Hammond, of South Carolina, who is the owner of a thousand slaves, and who considers the peculiar institution to be the true basis of society and of Republicanism, may be regarded as the personification of the Southern Oligarchy. He faithfully represents the lordly slaveocracy which sways the South and rules the Union by means of the Democratic organization and he is, moreover, honest in the views which he takes of the blessed character of slavery and the "fanaticism" of everybody who considers it to be an evil. In Mr. Hammond's recent speech to his constituents, at Charleston, we have, therefore, a true reflection of the sentiments of the slaveholding interest. In that speech we see just how the slaveholders view the contest upon the slavery question, and what *they* consider to be its present aspect. It is instructive to Northern men; for it shows that there is a battle yet to fight, and a victory to be won for freedom. We therefore extract some of the more significant portions of Mr. Hammond's speech, as reported in the Charleston Mercury:

THE OLIGARCHY WANTS A GREAT STANDING ARMY.

Mr Hammond alluded to topics before Congress during the session. He voted for an increase of the army and navy. He had heard a number of sophomore speeches against increasing these arms of the national defence. They were worthy of college students rather than grave Senators of the nation. He apprehended little danger from a standing army. The army should be increased, because the South was utterly indefensible in its present condition. The *Southern* coast needed for its protection a numerous fleet of small vessels.

The army and navy should be increased because the *South* needs protection. In the mouth of a Southern Democrat, this is "nationalism," we suppose; but when Northern "Black Republicans" advocate a continuance of the fishing bounties because they sustain a Northern interest and at the same time contribute to the national defence, modern Democrats denounce it as "intense sectional sin."

The slaveholders apprehend little danger from a standing army!! Of course they don't. Standing armies, the world over, are established for the protection and perpetuation of despotisms. Slavery is a despotism of the most dreadful and unrighteous character; and the despots look to the standing army of the United States to sustain it. The *danger* of a great standing army is to our Republican institutions. Of course the oligarchy has no fear of it.

THE SLAVEHOLDERS WOULD DISSOLVE THE UNION IF THEY COULD NOT RULE IT.

Senator Hammond said he would now address himself to the great question of the North and South. Whatever relations might eventuate between the North and South, they would be in the end consistent with the rights and security of his section. Under the present aspect of affairs the South would have to remain in the Union. If we had dissolved the Union, and had engaged in a brush with some people, (which must occur in setting up for ourselves and lawfully establishing our institutions,) it would have been best for us. But now, *if we can rule in the Union*, let us remain.

The Democratic organs at the North tell the people that the Republican party is a sectional party, and should therefore be subdued.—What do the people think of modern *Democracy*, as displayed in the above paragraphs? The boldest duress on sentiments are avowed, and not a Democratic paper, North or South, rebukes them. Mr. Hammond's friends rule the Democratic party, and they declare that THE PRINCIPLES OF SLAVERY SHALL RULE IN THE UNION, OR THEY WILL DISSOLVE IT! And this is modern Democracy!

BUT THEY WILL WAIT ONE TIME MORE, IF BEATEN THIS TIME.

We must close, for the Union if they effect any one of their express purposes—tariffs, banks, or the fishing bounties with closed.

Hence, if in the next Presidential election the North, through an honorable ticket, elect an Anti-Union, he did not think that in that event the great subject of the South would be out of the Union.—But if this were followed by a second election of the same kind he thought they would.

Then, it is undoubtedly prudent to wait high votes.

DESTRUCTION OF THE REPUBLIC IS AN ASSURED FELLOW THROUGH.

On battle and triumph was a moral one, in overcoming and shooting the false and absurd philosophy of the civilized world on African slavery. He did not fear, then, this or of a Northern supremacy. Let the South, in order to preserve her purposes of ambition or fanaticism, make attempt to reorganize federal courts on a new representative basis, and then destroy the conservative nature of that court, and thereby give the government into their own hands, then the people of the South must dissolve the Union.

The South claims a "mere triumph," because the Southern Democrats have brought the Democratic party at the North to discard anti-slavery and its former free-soil sentiments. And there in truth is the assertion. The Northern Democracy does practically declare that extension to freedom is an absurd philanthropy, and the oligarchy so thus achieved a victory, *in the Democratic party*—but not yet, thank God, in the hearts of the American people! The people will strive to reorganize the federal courts upon a new basis, that the voice of the people may be heard through them, instead of the voice of bad editors and despots elsewhere ding mi city. Let it be no man that make Democrats declare that they will dissolve the Union. If the people even "concede" to the majority of the nation represented on the Supreme Bench.

THE SLAVE-TRADE DEFENCE AT HOME UPON NORTHERN DIVIDENDS.

The Fourth cannot unite permanently, while the South can. The North never yet had an important office more than one term. He therefore feared nothing now.

But the Northern people are evidently growing wiser—having recently achieved some signal triumphs by an appeal to union among the whigs. The next Democratic nomination for the presidency is to be made a South Carolinian, and the North will endeavor to meet the insolent sectional challenge of Senator Hammond, which he now makes in behalf of the oligarchy. The lordly aristocrat may depend upon it that the "mad ones" will be moved in the next election.

SLAVERY IS NO USE—BUT A GREAT BLESSING.

In locking back at the ground he is up by the South himself, it may be seen that she has been for years engaged in pulling down the work of her own hands during the present ag thirty. Our proper position is to meet the issue we have raised. Slavery is so an. The slave is in his normal condition—the right man in the right place. This we have taught the world, and it is a great blessing. We have not of equality is a gross absurdity.

Slavery in right proper, just and divine. And this is the latest exposition of modern Democracy.

THE NORTH is by no means wholly to blame for the present condition of the sections. Many of our statesmen took their rise at the South. Many of our Presidents originated here. With the letters of these we have long nursed. The victory is ours. We have achieved a great moral power, and it old one is.

"Pillar by pillar" of freedom" such as the ideas of the Declaration of Independence have been cut out by the power of the modern Democracy. Slavery has thus achieved a "great moral power," and intends to use it.

AN IMPORTANT ADMISSION.

Lastly, in the next, we extract the following important admission made by Senator Hammond.

All the opposition measures of which the South has complained in the last thirty years had practically originated. WASHINGTON'S FAREWELL ADDRESS, "THE MATTER OF SLAVERY, BUT THE EVIL EXAMPLE. The North borrowed it upon them.

Here we have admitted as fact, said by the great Nullifier out of modern Democracy, that Washington and Jefferson, those early apostles of freedom, although Southern men themselves, were unanimously opposed to slavery. And their glorious sentiments of freedom set forth in their words and deeds of Revolutionary memory, are now stigmas set by modern Democrats as "AN EVIL EXAMPLE!" We thank Mr. Hammond for this palpably and honestly admitting that the conservative and views of modern Democracy are diametrically opposite to the doctrines and views held by Washington and Jefferson. The Republicans have long declared this to be so, but the Northern Democrats have persistently denied it. We are glad he admitted by the very best Democrats in the country. And upon that admission inevitably follows another, viz: THAT THE REPUBLICAN PARTY IS UPON THE PLATFORM OF WASHINGTON AND JEFFERSON. And in thus striving to bring back the genius of our government to the doctrines of the fathers—while modern Democracy is following after the Calhouns and the Hammonds of the present day, and substituting the "EVIL EXAMPLE" of Revolutionary Rot.

Missouri. The St. Louis Democrats call attention to the fact known in the recent election, that free will *is no quality*, and *under no pressure of adversity, has rescinded one single vote in the State of Kansas*. The fact may not have been before presented, but the expression of public sentiment was made in full knowledge of the direction a which it wended. In St. Louis, using only the question of fraud, the free-soil vote has increased one thousand since the election of 1856. So fast is this discouraged by the last election, the free soil interest is made dense in its conviction of the policy upon to be pursued. Henceforth there will be a union of the elements.

MARINE DISASTER.—The Brig Everglade, of Rockhill with coal for the Newburyport railroad, is on the Gilder Rock, below Newburyport, bilged, and she will have to discharge before she will come off. She lies in a fixed position.

The ship Pepperell of Saco, which put into New York on the 9th inst., was leaking badly, and had lost the first officer, four seamen and a boy, of yellow fever. Capt Twombly, Second Twombly, 2d officer, and four seamen were brought to the Upper Quarantine sick. At one time, all the hands were sick but the other officer, Mr. John Dunn.

Republican Delegates.

The following delegates were chosen at the Ward Caucuses on evening:

To the District Convention.

Ward 1. Cash'er O. Heard; John Wyman; John E. Lynde.

Ward 2. Sam'el F. Hersey; Hollis Bowman; Henry M. Plaisted.

Ward 3. Franklin Muzzy; Wm. H. Smith; John True.

Ward 4. Nat Wood.

Ward 5. Wm. H. McCillis; A. R. Hallowell; Elijah Low.

Ward 6. S. P. Strickland; J. W. Humphrey; G. F. Sargent.

Ward 7. Elbr'd Clark; Greenleaf Fogg; A. G. Wakefield.

To the County Convention.

Ward 1. Two names of delegates have been reported to us as having been chosen in Ward 1, viz; one the consisting of F. L. Dillingham and John Wingate; the other of H. S. Deane and John B. Kimball. Both Caucuses report the same delegates to the District Convention.

Ward 2. Charles P. Brown; Z. P. Bates. [Substitutes, E. B. Stow; Charles Hayward.]

Ward 3. Jason Weeks; Wm. B. Pattee.

Ward 4. Jefferson Chamberlain; Samuel Wiley.

Ward 5. Charles Sawtelle; John B. Foster.

Ward 6. A. D. Manson; James Littlefield.

Ward 7. John M. Lord; Daniel P. Wingate.

A Pertinent Question.

Mr. Hon Bradbury and the hunker papers urge upon the voters of the Sixth District the, if a *democrat* is now elected to Congress, he will have influence enough with his party to save the fishing bounties. At the same time Mr. Bradbury gave the voters to understand, that he regards the "Reciprocity Treaty" as exceedingly injurious in its operation upon the interests of the Down East, and that the arrangement should never have been made. Now this Reciprocity arrangement was consummated in 1853 and 1854. In the 33d Congress which held sessions in those years, we find that there were no less than *three* democratic members of the House from Maine, viz: Thomas J. D. Fuller (*from this same Sixth District.*) Moses McLeonald from the First District, and Samuel Mayall from the Second District,—the latter being then an administration democrat.

Will Mr. Bradbury please to explain, therefore, that if *three* administration democrats from Maine had not influence enough with the administration in 1854 to prevent the establishment of this injurious Reciprocity arrangement, how it is that *one* democrat who represents himself to be *opposed* to the administration on the Lecompton question, is going to have influence enough in 1859 to prevent the repeal of the Fishing Bounties? If three democrats could do nothing to guard the interests of Maine in 1854, how much can *one* do in 1859. "O, this problem in the "rule of three" the eastern candidate is respectfully requested to furnish an early solution.

Pitiful Meanness.

The Bangor Union and other hunker papers, fearing the just effect upon the voters, of the admirable speech of Hon. Stephen C. Foster, upon the Fishing Bounties, have resorted to the pitiful meanness of denying that it was ever delivered. The Union of yesterday asks:

Will the Whig inform us if that speech was ever delivered, and if so, in the Daily Globe of *what date* can it be found? We have carefully examined the report of the proceedings of the House for the 25 h of May, and we cannot find that Mr. Foster opened his head on that day.

As a matter of justice to Mr. Foster, and not to satisfy the Union (for the Union knows his own falsehood in the matter) we will state that Mr. Foster's speech was published in full in the Daily Globe of June 8d, 1858, and that it was delivered in the House *May 24th*, instead of the 25th as erroneously stated. The hunker papers would be more decently employed in explaining to the voters why the whole Buchanan democratic party in the Senate voted to abolish the Fishing Bounties.

THE FIRST DISTRICT CONVENTION. The Portland Argus made considerable haste to allege that there was bogus voting in the Republican Congressional Convention at Saco last week—boldly declaring that there were more votes thrown at two of the ballotings than there were delegates in the Convention. Now we find by the official proceedings just published, that the number of delegates was 102, and the number of votes thrown at each of the nine ballotings was as follows viz: 160, 160, 159, 161, 161 166, 169, 162, 165. Mr. Somes was fairly nominated, and his nomination *unanimously* ratified by the Convention, amid enthusiastic cheers.

The general resolves passed were as follows:

Resolved, That we utterly condemn the administration of James Buchanan for its wasteful extravagance and avowed sectionalism; and hereby pledge to each other the vigorous employment of every constitutional means to effect its overthrow.

Resolved, That we are unalterably opposed to the extension of Slavery into any territory of the United States, under whatever disguise of judicial decision, executive patronage, or legislative enactment, the attempt is made.

Resolved, That we hereby express our full approbation of the manly and persistent action of our Senators and Representatives in Congress in their fearless vindication of "free speech, free labor and free men."

Resolved, That we endorse fully the principles contained in the resolutions which were adopted at the State Republican Convention, holden at Augusta in June ast.

The Atlantic Telegraph is not to be thrown upon at other business. Mr. Field has announced that the Directors decided unanimously that after the cable was laid, and the Queen's and President's messages transmitted, the line should be kept free several weeks for the use of Dr. Whitehouse, Prof. Thompson, and other electricians, to enable them to thoroughly test the various modes of telegraphing, so that the Directors might decide which was the best and most rapid method for future use. It was considered that after the line should be once thrown open for business, it would be very difficult to obtain it for experimental purposes, even for a short time. Due notice will be given when the line will be ready for business, and the tariff of prices.

LOCAL AND MAINE NEWS.

A CLERGYMAN, SOMEWHERE.—The lovers of classical music will be pleased to learn that Messrs. Hallis and Jungnickel have consented to give a Concert on Monday evening next, at *Johnson's Hall*, for the presentation exclusively of classical music. It need not be stated that in the higher range of musical art these performers are proficient, and that they are capable of furnishing, and will undoubtedly furnish, a musical entertainment such as will delight the most fastidious ear. A very choice programme will be offered.

NOT CAUGHT.—We learn that the assassin Stevens who shot and severely wounded Mr. Daniel McClintock at Milford, last Tuesday, has not been taken as reported. We are informed that the person arrested and supposed to be Stevens, is not the man, and the real criminal was still at large at last accounts.

POCKET-PICKING IN PORTLAND.—We learn one of our Bangor ladies, (Mrs. Bartlett), and two other ladies were robbed of their money in the Grand Trunk Station at Portland, on Thursday last, by some expert hand at pocket-picking. Mrs. B. had about $16 in her portmonnaie, which was taken from her pocket while going to the ticket office, and probably by a man whom she could recognize, and who had been very anxious to give her information as to the starting of the cars &c. Upon missing her money, Mrs. B. did not hesitate to make an immediate outcry for a policeman, but none could be found, and the rogue probably escaped, although there was considerable excitement when the train left. One of the other ladies was robbed of $9, and the third lost all the money she had about her.

AMIABILITY.—To have, anybody in any street, in any city, who makes repairs on his buildings, or front fence, block up the sidewalk for two years, totally regardless of the rights and convenience of the public. P.

Rev. Prof. Geo. E. Ellis of Charlestown, Mass., will preach to-morrow and the following Sabbath, for the Independent Congregational Society (Unitarian) or Union Street.

SUPREME COURT.—*Friday, Aug.* 13. The case upon one of the three indictments against Merrill S Buck, was continued till next term; and he was put on trial on the indictment for stealing a wolf robe from the stable of Daniel P. Wingate, upon which the jury returned a verdict of guilty.

GRAND EXCURSION OF KENNEBECKERS.—On the 18th the steamer Eastern Queen, will take a grand excursion party from the river Kennebec towns to Rockland. The Bath City Guards, and Boston Brass Band will accompany the party.

LECTURES ON SPIRITUALISM.—It will be seen by notice in another column that Rev. Mr. Hubert will again lecture upon the subject of "Spiritualism," at the City Hall, on Sunday next, (to-morrow), afternoon and evening. His afternoon topic is "Divine Inspiration" (not "Justification" as printed yesterday.

WOOLEN FACTORY.—The Pioneer, in speaking of the abundant water-power at the village of Presque Isle, says that the attention of capitalists abroad is directed to this subject, and there is some probability that it may ere long be made to turn the wheels of a woolen factory, and that other improvements will be made tending to develope the resources of that whole region, which cannot fail to give increased impetus to the settlement of the public domain, making agricultural pursuits much more profitable, by opening a home market for *all that can be produced*, and thus add largely to the necessity of a Railroad to connect that rich and fertile country to the other and older portions of the State.

THE TRACHMAN' CONVENTION for Aroostook County, is to be held in Houlton this year, commencing on Monday, Aug. 23d, and closing on Friday, 27th. Prof. P. A. Chadbourn, of Massachusetts, and Prof. Harry Brickett, of New Hampshire, will be present with Mr. Dunn ell.

CALL ACCEPTED.—Mr. George E. Freeman, from the the Bangor Theological Seminary, has received and accepted an unanimous call from the Orthodox Congregational Church and Society in Manchester, Mass., to become their pastor. Mr. Freeman graduated at the last commencement.

GRAND EXCURSION.—Engine Company Deluge, No 4, have made preparations for a trip to Matinicus, where arrangements have been made for a chowder upon the "ancient isle of the sea." The Band will accompany the party, and all pains will be taken to have an enjoyable time.—*Rockland Free.*

FIRE WORKS! [TELEGRAPHIC REFERENCE!] Messrs Jas. G. Hovey & Co., of Bos on, are now receiving orders for their "Premium Fire Works," in anticipation of the general demonstration, upon the receipt of the *first Telegram from England to America*. See their advertisement in another column.

THE MANUFACTURE OF PAPER FROM ESPARTAN HEMPY RAGS.—Rev. J. C. Fletcher has recently visited Gardiner, and in a letter to the Journal of Commerce, speaking of the extensive paper mills at that place, says:

"Yesterday I visited, in company with Mayor Woods of Gardiner) the two principal paper factories, and I was astonished in looking at the millions of pounds of rags piled up in warehouses or spread over acres of ground. I find that a portion of them has recently arrived from Alexandria in Egypt.—They were the most odoriferous old clothes that I have ever had the bad fortune to smell. This odor was owing to the fact that a part of them were in a damaged state. The Egyptian rags had been collected from all the corners of the Pasha's domains—from the living and the dead. How many cast off garments of Howadjis and Hadjis; how many tons of bad boose, Turkish capped breeches; and how many head-pieces in the shape of old dolled fezzes the deponent saveth not! But the most singular and the cleanest of the whole filthy mass came not from the backs of the present generation of travellers—pilgrims, peasants, soldiers and sailors of Egypt—but were the hundred wrappings of men, bale, broad-linened ones, torn from the respectable defunct members of the same!

What a scene to call up the grim past! And what a de cension, too, to take the garments of the Prophets, Pharaohs, and of sacred bulls, holy crocodiles and pharaonts, and mingling them with the vulgar accommodations of the shave-mited head of Modern Egyptians, to ship them to the other side of the world—to a land which Ptolemy's map had no room for—there to grind them up to the music of cog-wheels and the hiss of the Cobbleskin Caste! Later Rats did the religious and Egyptians think that they were piling away stores for the future cash accounts, of Turkomans, and the Ilano folds which so carefully bandaged their holy head, should one day make the beautiful and highly celebrated paper on which our American journals are printed.

We learn that Chief Justice Tenney was seized with a billious attack on his return home from Commencement at Brunswick, from which he suffered severely for some days. He is now much better, and will soon be able to resume his official duties.

GOLD ON BEAR RIVER, OXFORD COUNTY.—We were yesterday shown some specimens of gold taken from the bed of Bear River, in the town of Newry, Oxford County. They were taken out by H. Clay Smith, Esq., who has been prospecting in that region. He assures us that he found the real gold bearing quartz and took specimens of gold at various points; although the high water occasioned by the constant rains prevented any test as to whether enough could be obtained to make mining profitable. There is no doubt about there being gold; the only question is, whether it is abundant enough to make gold digging pay. *Argus.*

The Potato rot has made its appearance in Sullivan and Brooksville,—says the Ellsworth American.

POCKET PICKED. Joseph H. Dean of Sullivan, had his pocket picked of $75, on board the steamer Rockland, on her last trip from Rockland to Sullivan.—*Ellsworth Am.*

ACCIDENT. In an attempt to accustom a spirited horse to the sight and sound of the cars, our fellow townsman, Col. Johnson Williams, was quite seriously injured, a few days since; but though several of his ribs were broken, we are happy to learn that he is now doing well.—*Waterville Mail.*

PROBABLY DROWNED. Jeremiah O'Neil and a Mr. McDonald left here sometime during Sunday night, 1st inst., in a boat. The boat has since been found, but nothing has been heard of the two men, and it is supposed that they were drowned.—*Eastport Sentinel.*

SICKNESS LIQUOR. On Sunday night, 1st inst. five barrels of liquor, belonging to Stephen Munson, were stolen. The liquor was afterwards found in the vicinity of the wolves.—Four barrels were uninjured, the fifth had been tapped, and the liquor was spoiled, salt water having been mixed with it instead of fresh.—*Eastport Sentinel.*

[Telegraph to Evening Paper.]

FROM THE ATLANTIC TELEGRAPH, *St. John, N. F. Aug.* 13. To the repeated inquiries which are made every hour through the day, as to the condition of the cable and the probabilities about the reception of the Queen's message, we are unable to return any other answer than that the cable remains all right. The electrical signals pass through its whole length satisfactorily, but the electricians have not yet concluded their arrangements for putting their recording instruments into operation.

A SUCCESSFUL WOMAN IN CALIFORNIA. Mrs. Eliza Todd, who owns a ranch below Weaverville, is a remarkable woman. In 1852 she walked from Shasta to Weaverville, and without money, began the business of washing, for six dollars a dozen. An acquaintance, who lived near her domicil, says that for a long time she was bending over the washtub at daylight in the morning, at noon, and at 10 o'clock at night. Business prospered, and after a while she bought two claims, which turned out well. Then she bought chickens, which laid eggs, and which she sold at half a dollar apiece; then she bought a pig for $125, and sold its progeny for an ounce or $16; then bought cows, and sold milk. Business still increased, and she began buying real estate, lending money at ten per cent a month, and speculating in lots; always was fortunate; every touch turned something to gold. Now she is one of the largest property holders in the North.

The Election in St. Louis—Corruption at the Polls.

Correspondence of the New York Times.

ST. LOUIS, Wednesday, Aug. 4.

The official returns are not yet completed, but enough is known to insure the election of J. Richard Barrett, (*alias* "Misery Dick") by a plurality of probably 400. This has been accomplished by the use of from 1000 to 2000 illegal votes, beyond peradventure. For instance, in the Gratiot Precinct the number of legal voters is by the strictest canvass less than fifty; on Monday nearly two hundred votes were polled there. And to another precinct where the whole number of residents—*men, women and children*—by *actual count*, is less than *two hundred*, there were nearly or quite that number (200) of votes cast.

UNHEALTHY POSITION OF THE BODY. Those persons engaged in occupations requiring the hands alone to move, while the lower limbs remain motionless, should bear in mind that without constantly raising the frame to an erect position, and giving a slight exercise to all parts of the body, such a practice will tend to destroy health. They should, moreover, sit in as erect a position as possible. With seamstresses there is always more or less stooping of the head and shoulders, tending to retard circulation, respiration, and digestion, and produce curvature of the spine. The head should be thrown back, to give the lungs full play. The frequent long drawn breath of the seamstress evinces the cramping and confinement of the lungs. Health cannot be expected without free respiration. The life-giving element is in the atmosphere, and without it in proportionate abundance must disease intervene.—Strength and robustness must come from exercise. Confined attitudes are in violation of correct theories of healthy physical development and the first setting of nature. Those so-accustomed to sit writing for hours, day after day, can form some idea of the exhausting nature of the tedious and ill paid labor of the poor seamstress.—*Scientific American.*

Treasurer's Sale.

STATE OF MAINE,

PENOBSCOT, ss. AUGUSTA, Aug. 10, 1858.

PURSUANT to Chapter 11 of the Revised Statutes, I shall attend at my office, in Augusta, on the first Monday of September next, at ten o'clock A. M., and on the first Monday of each month thereafter until the sale, by public auction, of the interest of the State in the following townships—the said tracts having been returned to the State for State taxes and certified to the Treasurer of State:

The sale and conveyance will be made subject to a right of redemption by the owner, whose rights have accrued, or may accrue, at any time within two years from the day of the sale, by paying to the purchaser, or his heirs or assigns, the purchase money, with interest thereon for at the sale, with interest at the rate of twenty per cent. per annum from the time of sale, and one dollar for release, or any person having any interest by paying as aforesaid to the Treasurer of State, as provided in Chapter 11 of the Revised Statutes.

No trace, however, will be made of any of the full amount due thereon, for State and County taxes, interest and charges accrued in the following schedule:

TELEGRAPH.

TO THE DAILY WHIG AND COURIER.

(Special Despatch to Daily Whig & Courier.)

Republican Nomination in the Third District.

ROCKLAND, Aug. 13.

The Republican Congressional Convention held here to-day nearly unanimously nominated.—The nomination was referred to the Lincoln delegation; which subsequently reported that they were unable to agree. The matter was then submitted to a vote of the whole Convention, which made choice of Hon. Anna P. Fessenden of Damariscotta, on the second ballot.

From Washington.

WASHINGTON, 13th.

Preparations are being made for the organization of an efficient military staff for Washington and Oregon Territories, preliminary to the contemplated operations against the hostile Indians, and to prevent a repetition of such losses as were experienced by Col. Steptoe. The object of the Secretary of War is to make them duly sensible of the power of the Government. A force of 2500 men will be kept in the field.

One of the peace commissioners, in a private letter represents the affairs of the Territory in a good condition.

His arrival of the peace commissioners here is daily expected.

Secretary Cass last night suffered from another attack of a chronic affection. He was at the State Department to-day, but transacted some light public business at his residence.

Gen. Fair of Ala., recently appointed Minister to Belgium, is in the city awaiting instructions.

Various Items.

BOSTON BAY, Aug. 13.

All the arrangements for working the cable are confided exclusively to the assistant of Prof. Whitehouse, the Electrician in Chief of the Atlantic Telegraph Company, and as all their operations are conducted privately, and they decline to give any information beyond the fact that signals are successfully and constantly passing through the cable from the telegraph office to the telegraph office at Valentia, Ireland. All rumors representing a different state of things are unfounded, although the cause known, except to the electricians immediately connected with the cable, why the progress is being made in working Prof. Whitehouse's recording instruments. We hazard little in saying that it has been found as yet impossible to work them successfully. No doubt, however, is entertained that the Hughes instrument, when ready, will overcoming all difficulties.

MONTREAL, August 13.

Extensive preparations are in progress here in connection with the completion of the Atlantic Telegraph cable. Our Municipal authorities, as well as the citizens generally are moving in the matter with great enthusiasm.

OSWEGO Aug. 13.

Extensive preparations have been made in this city for a grand celebration and illumination on receipt of the Queen's message and President's reply.

PHILADELPHIA, Aug. 13.

The Methodist Church, corner of Penn and Nippon Streets, was considerably damaged by fire this morning. A fireman was drowned.

BANGOR, Me., Aug. 14.

The President and party left the Springs this morning, and will pass the night at Campobello. The President's health is greatly benefited by his sojourn here.

NEW ORLEANS, Aug. 12.

The deaths by fever on Tuesday were 35, and Wednesday 15.

DAWSON, August 2.

Fire was discovered about 1:30 this morning in the Empire Grain Elevator, owned by F. L. Carrington and P. Rathbone, which proceeded rapidly throughout the building, destroying it, together with the grain stored in it, amounting to about 60,000 bushels, principally the property of which was corn. The Elevator was insured from $30,000 to $35,000, and was partially insured. The total loss is estimated at $75,000. All the insurance is in Connecticut.

ST. LOUIS, Aug. 12

A despatch from Leavenworth dated 12th, to U. S. Express to Booneville, says that Gen. Ward Burnett, Surveyor General of Kansas and Nebraska, arrived there yesterday afternoon, and that an effort had been made to procure the removal of the surveyor general's office from Nebraska city to Leavenworth, but the proposed change had not yet been announced.

The California News.—The Fraser River Excitement.

The San Francisco papers state that the Fraser River excitement has received a decided check, and are evidently much gratified thereat. The Alta California says:

"In the rest of the Alta at the East will be disappointed at the sudden and extraordinary fall in Fraser river stock, than they were at its rise and foreign ports. But all who, will perceive that there is no little cause for the existence of one or the other—were there sufficient grounds for the excitement at which prevailed all parts of the world, and took away thousands of men from all employment, and which very little was known about which very little was known, and which was only based upon uncertain rumor, and which rumor, though uncertain, was not contradicted by the accounts of all, and should have known, was not contradicted by the accounts of all, and should have known, was not contradicted by the information had considering it would conclusively would not reveal, if it were, under the rule of the British Bay Company, to suppose sufficiently to feed a population of tens of thousands, thrown into it all at once, like a crew of shipwrecked passengers on a desolate shore.

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND,

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Room.

Tickets to be sarried by this line to sell from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, on the cheapest rates.

Portland, April. 2, 1858

California Steamers,

Carrying the United States Mail.

5th and 20th of each month,

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire through Tickets, one adding *meals*, on the Isthmus.

Passengers made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 300 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on the arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the only *Authorized Agent* for the atlantic and Pacific Mail Steamship Company, in the city.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 79 Wall-st

Perfect Security against all manner of Frauds or Counterfeiting on Paper—The Prevent Photographs and Ametistic Composition, Bronzes Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY BATES, a celebrated Chemist and officer in the British army, it is hardly necessary to say that this Paper is recommended by Mr Kent, Ahey er, of the U. S. Mint Mr. Lyman of the New York Gazette House, and Meade Brothers, extensive and skilful photographers, 323 Broadway N Y. The latter say that no imitation can be made on a check or note once printed on the Safety Paper. Below is our List of Prices:

Bank Checks—35 cts. per lb
Bank Bills—$75 for 1000 sheets.
Bills of Exchange—$25 for 1,000 sheets.
Promissory Notes—0 cts. per lb
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Notes and Bonds—50 cts per lb
Bank and State Notes—50 cts. per lb
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths; 40 cts. a lb

For Indentures and Agreements, 40 cts a lb

All State and County Bonds should always be printed or written on this paper, as the carbonic acid inserted in its pulp and oxide prevents erasure or transfer, but makes it adhere so firmly that for Safe Bank Checks it is unrivalled, and much superior to any other; for the substance of the oilmail does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, it is found impossible to be kept over 24 hours, by the cockroaches, ants, &c., while the oils and other ingredients contained in his paper makes it indestructible by the rats for a long time. It is also proof against maths, rust and other vermin, which insect or and destroy all other paper now in use.

The Company have also in addition Mills in Morris County, N. J., of about 40 acres power, and are ableto fill all orders or paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 79 Wall street, New York.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and maintain the circulation of their paper they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the three largest lists of subscribers sent in by the 1st of January, 1859, said premiums to be distributed as follows:

For the largest list $300; 2d, $250; 3d, $200; 4th, $150, 5th, $100; 6th, $80, 7th, $80, 8th, $70; 9th, $60; 10th, $50; 11th, $40, 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the order of the successful competitors immediately after the 1st of Jan., 1859.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to prepay postage.

Terms of Subscription.—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $7; Ten Copies for Twelve months, $15; Twenty Copies for Twelve Months $25.

For all Clubs of Twenty and over the yearly subscription is only $1,00.

The new volume will be printed upon fine paper, with new type.

The editorial character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various useful arts and manufactures, *Mechanics, Inventions, Patents, Agriculture, Horticulture, Mining, Engineering, Mill Work*, and all subjects which the light of Practical Science has elucidated to advance. It is issued weekly in form suitable for binding, and contains annually from 500 to 600 finely executed Engravings, and notices of American and European improvements, together with an Official List of American Patent Claims published weekly. It enhances the value of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and pernicious in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

CHARTERED BY LEGISLATURE, JUNE, 1857.

Authorized Capital $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED P. MILLER, Secretary. WARD COWING President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Perry, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached or very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings

Policies granted and issued to parties effecting insurance, at once without delay, by the undersigned, at his office.

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will season need a Physician.

IT is not a truth that when the feet is often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and worthless? but when this water-proof blacking is used, soft, and rationally impervious to water.

After having been used for 25 years, it will maintain its reputation as the best water-proof blacking for all kinds of leather, and being often imitated with but feet myself, was led to experimenting on different compositions, and after many trials, I succeeded in producing a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only render the leather water-proof, but likewise softens the outer, and will

Positively wear twice as long.

I have now used it for three years, and a large part of that time I was worked, in a wet Tannery, with my feet constantly in water, and have not had my feet wet during all that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid matter from the system, acquiring in their place a healthy flow of bile, thus invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease, and effecting a radical cure.

Bilious attacks are cured, and, what is better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves Colic, whether

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under act of 1837.)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of foreign and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents. There were few, if any, personal acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more ability, fidelity, and success. I regard Mr. Eddy as one of the most talented and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.
[From the present Commissioner.]

"Augusta, August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules or practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
